Re: Electronic Diving Score Sheets
Date: January 2022

The IHSAA Diving Score Sheet is posted on the Swimming and Diving pages of the IHSAA.org website and myIHSAA. The score sheet contains formulas which will permit the user to enter and calculate scores.

As a reminder, the IHSAA will be utilizing the electronic diving score sheet for the tournament series. We strongly encourage member schools to begin using the score sheet now, so that all coaches are familiar with the process. Coaches should download the file and save it on their desktop. After opening the workbook, the user must **Enable the Macros**, which is the “options” button near the top of the page. Instructions for completing the score sheet are contained on the first tab of the excel workbook.

IHSAA Diving Score Sheets must be submitted electronically to the Sectional host site by 12:00pm, without penalty:

Girls – Wednesday, February 2, 2022

Boys – Wednesday, February 16, 2022

Late Diving Scoresheet – accepted if accompanied by a check for the following amount:

- Within 24 hours after deadline — \$50.00
- Within 48 hours after deadline — \$100.00
- Over 48 hours — may not enter tournament

This tool will offer the user many benefits. Electronic diving score sheets will insure that important information such as the competitor’s name, school, grade, etc. are legible (all submitted information must be typed). The diving score sheets are equipped with NFHS competitive diving rules, preventing the coach or student athlete from listing dives in the incorrect order. In addition, once the user enters the dive number and position, the degree of difficulty will automatically be generated. And with the recent upgrade, the score sheet may actually be used for scoring purposes.

Please forward any questions to Kerrie Rosati (Schludecker) (krosati@ihsaa.org)
